Quality Excellence

Systems Solutions

Energy Efficiency

# DSP

## Distributed Scroll Pack

### Standard Features

- Smaller system for flexibility on roof or closer proximity to in-store equipment
- Offers flexibility with 16 pre-engineered models, including low and medium temperature
- Reduced energy and maintenance cost over lifetime with reduced piping and refrigerant quantity
- Disaster recovery; the DSP, walk-in and cases can be powered with small generator
- Employs Copeland Scroll Digital™ and compressor cycling using remote CPC Einstein II controller for unsurpassed load matching
- Economized vapor injected compressors on low temperature units
- Variable speed condenser fan motors
- Split condenser valve
- Loop piping
- Weight less than 1600 pounds

### Customized Solutions

- Five low temperature compressor combinations
- Eleven medium temperature compressor combinations
- Single point 208 or 460 volt power connection

### Optional Features

- Piping through bottom or end on the compressor end of unit
- Non-fused disconnect switch shipped loose or factory installed
- Factory supplied curb

### Leader in Distributed Systems

Kysor//Warren has the broadest distributed refrigeration systems product line in the industry. We listen to our customers needs and then design a system to exceed customer expectations. Collaborative problem-solving based on your needs, opportunities, and desired results

### Quality Excellence

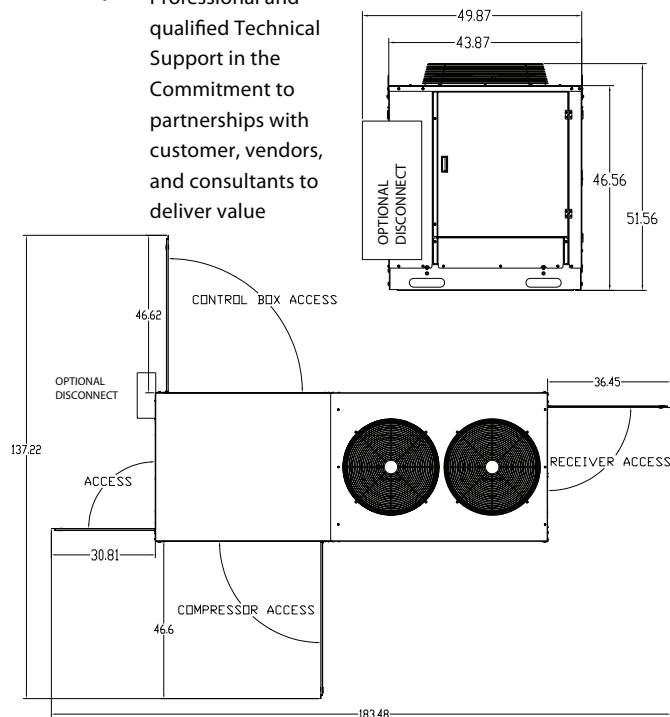

- Technology driven partnerships providing our Customer's with the best solutions for their individual needs
- Shortest industry lead-times, best on-time delivery performance
- Commitment to partnerships with customer, vendors, and consultants to deliver value

### Energy Efficiency

- Technology driven partnerships providing our Customer's with the best solutions for their individual

### Technical Support

- Professional and qualified Technical Support in the Commitment to partnerships with customer, vendors, and consultants to deliver value

#### Other Distributed System Solutions

Distributed Scroll System, Compact Scroll System, Weather Packs
